

# THREE MOONS

CABERNET SAUVIGNON

ITALY • CALIFORNIA • AUSTRALIA

## THE REGION:

The Cabernet Sauvignon grapes for this premium wine were sourced from three carefully selected wine growing regions. Veneto is located in northeastern Italy – its breathtaking landscape provides the perfect conditions for producing high quality Cabernet Sauvignon. The Sierra Foothills in California, made famous during California's Gold Rush, is known for developing grapes for bold and powerful wines. Lastly, the Riverland wine region in Southern Australia follows the Murray River and enjoys a Continental climate resulting in long sunshine hours which afford the wine full, ripe characteristics.

## THE WINE:

This luscious, complex Cabernet Sauvignon exemplifies the unique characteristics from each of the three regions where the grapes are sourced. Deep ruby-red in colour with blackberry, cassis and cedar notes, Three Moons Cabernet Sauvignon is a bold, yet approachable wine with a long, smooth finish.

## FOOD PAIRING:

Pairs well with roasted meat, aged cheese and pasta. Try it with grilled beef tagliata topped with shaved porcini mushrooms and Parmigiano-Reggiano.

**STYLE:** BOLD RED

**BODY:** FULL

**OAK:** MEDIUM-HEAVY

**SWEETNESS:** DRY

**ALCOHOL:** 13.5%\*
